

PLAN TO INFORM

St. Pius X

Date: September 21, 2022

To: Columbus Diocese Workers, Students and their Guardians

From: LEA

Re: Notification Requirement per Asbestos Hazard Emergency Response Act

Consistent with the requirements of the Asbestos Hazard Emergency Response Act or "AHERA" (40CFR Part 163) the Columbus Diocese Schools inspect for Asbestos Containing Building Materials (ACBM) and develop an Asbestos Management Plan for each school. This is to:

"Ensure that workers and building occupants, organizations, or parent teacher organizations, are informed at least once each school year about inspections, response actions, and post response actions activities, including periodic re-inspections and surveillance activities that are planned or are in progress."

"Ensure that short term workers (e.g. phone repair workers, utility repair workers, or exterminators) who may come in contact with asbestos in a school are provided information regarding the location of asbestos containing building material (ACBM) and suspected or assumed ACMB"

Some Diocese of Columbus school buildings contain known or suspected asbestos containing building materials and are subject to periodic surveillances every six months.

Each of the school buildings has an Asbestos Management Plan that is available for review. The AMIs are available at the school offices.

This notice is provided as the annual notification required by AHERA.

Annual Notification of AHERA Activities

St. Pius X

Date: September 21, 2022

To: All School District Employees, Parents, and Students

From: Columbus Catholic Diocese LEA

Subject: Annual Notification of AHERA Activities for St. Pius X

The following activities took place between August 31, 2021 and Sept 1, 2022 or are scheduled for the 2022-2023 school year, fulfilling our requirements under 40CFR 763 (AHERA).

- An AHERA 3-year re-inspection was performed in the summer of 2021.
- A 6-month surveillance inspection will be performed in December 2022.
- A 6-month surveillance inspection is scheduled for June 2023.
- No asbestos removal was performed for the 2021-2022 school year.
- No asbestos removal is planned for the 2022-2023 school year.
- No major or minor fiber release episodes were recorded during the 2021-2022 school year.

Should you have any questions regarding the information included in this notification, or wish to review the school's Asbestos Management Plan, please contact the principal.
